

## BUILDING PRINCIPAL EVALUATION

The superintendent shall conduct an ongoing process of evaluating the principal on his/her skills, abilities, and competence. Annually, the superintendent or his/her designee will formally evaluate the principal. The goal of the formal evaluation process is to ensure the education program for the students is carried out, promote growth in effective administrative leadership for the school district, clarify the building principal's role as the board and the superintendent see it, ascertain areas in need of improvement, and focus the immediate priorities of the principal's responsibilities.

The formal evaluation shall include written criteria related to the job duties. The principal may make comments responding to the formal evaluation.

The formal evaluation shall also include an opportunity for the building principal and the superintendent to discuss the written criteria, the past year's performance and the future areas of growth. The evaluation shall be completed by the superintendent, signed by the building principal, and filed in the building principal's personnel file.

This policy supports and does not preclude the ongoing informal evaluation of the principal's skills, abilities and competence.

A new principal will be evaluated at least twice in writing for each of the first three years of their employment.
