

PROFESSIONAL DEVELOPMENT MASTER PLAN

It is the wish of this school board to sustain a high level of knowledge, skills, and preparedness among its professionally certificated employees. The board supports its educators in the maintenance of the appropriate teaching credentials, certificates, and licenses, as prescribed by New Hampshire laws and Department of Education regulations. The board values its faculty's ongoing pursuits of knowledge and skills that will help students learn. The board also values thoughtful planning and efficient management of all resources, to achieve the goal of a professional learning community.

It shall be the responsibility of the superintendent to develop, implement, and maintain a Professional Development Master Plan and to administer the plan in the district with and for the appropriate staff, in order to help achieve the objective of a highly qualified professional staff and effective learning by the district's students.
